IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of

David COLEY

Art Unit: 3723

Application No: 09/831,488

Examiner:

Lee D. Wilson

Filed: July 23, 2001

For: ACTUATOR APPARATUS

## REPLY TO THE OFFICE ACTION MAILED 10/03/2002

Assistant Commissioner for Patents Washington, D.C. 20231

Sir:

Further examination and consideration of this application are requested in view of the following Amendments and Remarks.

## **AMENDMENTS**

In the Claims:

Claims 1-3/and 27/-48, cancel.

Add new claims as follows:

- 49. (New) An actuator apparatus comprising:
- a housing member having walls formed with ports for a pressurized fluid,
- a first means housed in the housing member, the first means being a piston means displaceable in the housing member,
- a second means housed in the housing member, the second means being a valve means comprising at least one valve arrangement, the each-valve arrangement being transiently coupled to the piston means and the ports of the housing member, the or each-valve arrangement including partitions,

wherein at least one of the first and second means is removable or replaceable from the housing member to provide alternative combinations for the actuator apparatus, ( , )

the or each valve arrangement being operable to supply the pressurized fluid to the piston means whereby the piston means creates driving forces,
